

Quality Policy

Habonim's management and employees are dedicated to the following principles:

- The Company is fully committed to the customer
- Management regards quality, safety in general, and the functional safety of its products in particular - as key success factors.
- Management will take all steps and assign all resources required in order to meet these targets.
- Management initiates ongoing risk assessments, seeking opportunities for improvement, setting quality goals, and constantly monitoring the Company's performance.
- The Company's procedures, products, and quality management systems will meet the requirements of all relevant national and international standards, as well as the requirements and expectations of our customers.

Habonim implements its policies by:

- Allocating resources.
- Educating management and employees in order to raise awareness regarding quality.
- Continual improvement of the effectiveness of processes and products and enforcing compliance in all areas.

The Company is committed to strengthening collaboration between management and employees to increase awareness of and commitment to the quality of the Company's products and processes.

The Company instructs and trains employees as required by standards guidelines such as: API 6D & Q1, Directive 2014/34/EU, ISO 9001:2015, Directive 2014/68/EU, IEC 61508-1,2, Directive 2010/35/EU and others.

Habonim's management diligently monitors these goals and objectives and continually enhances processes and products to ensure that they are met.

QUALITY

Habonim strives to deliver quality products that meet and exceed customer expectations, providing complete and total satisfaction, thus maintaining the company's position at the forefront of the global ball valve and actuator markets.
